

RENEAL PHASE 2025A

The following are the activities that took place during the 2025A Project;

1. Boxes Airport Arrivals 20th July, 2025

Mr. David Nyangaka went to Kilimanjaro International Airport (KIA) to receive the boxes sent from the United States of America (USA). The items were then transported to JRIIT in Arusha-Sakina, where our Reneal office is located.

2. Boxes arrived at JRIIT Office on 23th July, 2025.

Once the boxes arrived, the Head of Schools benefiting from this project phase were instructed to prepare their Computer Labs according to Reneal Standards. This included arranging the tables in a U-shape, ensuring there were enough electrical outlets, and confirming that the lab had proper security measures such as secure doors and windows to prevent theft. Before installation, each school was required to confirm that their lab was ready.

3. Boxes were arranged at Reneal office on 24th July, 2025

The boxes were arranged accordingly and prepared for transportation to Tanga Region, where the beneficiary schools are located. For each school, the Reneal Management organized an installation team (Abubakari and Juma) responsible for the installation, as well as training the teachers, students, and Super Users.

4. School PickUps started at 24th July, 2025 with Losinoni

The installation began at Losinoni Secondary School on 24 July 2025 and was followed by training on 25 July 2025. The training was conducted for Super Users and teachers on how to use the custom-made Reneal system, which provides user-friendly educational materials for students. Therefore each school receive 20 client's laptop and 1 server.

S/N	SCHOOL	DATE OF INSTALLATION
1	Losinoni	24/07/2025
2	Usongwe	25/09/2025
3	Imezu	26/09/2025
4	Ilembu	27/09/2025
5	Iyunga Technical	27/09/2025
6	Mwapachu	06/10/2025
7	Mbwego	26/10/2025
8	Semkiwa	27/10/2025
9	Chief Mang'anya	28/10/2025

5. Last installation was Chief Mang'anya SS at 28th October, 2025

The installation was successfully completed at Chief Mang'anya Secondary School. However, our technician reported that one laptop had a damaged screen, so they were instructed to take it back to the Reneal office for possible repair.

6. Training for 10 new school

The Reneal Technical Team provided training to the Super Users and all teachers on the Reneal System, so that they are able to interact with the system effectively and provide a user-friendly experience.
